

# PRODUCT DATA SHEET

## PANEL ANTENNA

- 2 antennas in one package for spatial diversity.
- Outdoor/Indoor applications
- Articulating and flush wall and mast mounts available.

## 2.4 GHz. Spatial Diversity Directional Antenna

This spatial diversity directional antenna package offers two 6.5 dBi patch antennas in one easy to install assembly. Total package size is only 6.5" X 4.75" X .8". The standard antenna comes with 12" coax pigtail and N female connector. The antenna can be customized to include unique Part 15 connectors with various coax pigtail lengths. Offices, HealthCare facilities, educational and industrial campuses and shopping malls are just a few of the more common applications for this antenna design.

### SPATIAL DIVERSITY SPECIFICATION CHART

Model	Freq. MHz	Gain dBi	No. Elem	F to B dB	-3dB Beamwidth		Conn. Type (Female)	Dimensions in. (cm)	Wt. lb. (kg)
